Workshop Feedback

Japan: What are the triggers for developing a high technology medical devices industry?

Co-leaders:
Prof. Hiroshi Nakamura, Keio Business School, Japan

Mr. Mitsunobu Sato, Vice President, Clinical Quality, Regulatory Affairs, Post Market Surveillances Healthcare Economics, Industry Affairs Education and Training Center Medtronic, Japan
Key words in Workshop Session on Japan

Our focus is on Japan’s medical device industry

• Deeper/closer communication with deeper understandings of medical fields is crucial

• The role of education: lack of human resources in this medical device industry in Japan

• Improvement in user-friendliness must be highly evaluated

• No risk, No gain
