GLOBAL MBA
WITH MAJOR IN LUXURY BRAND MANAGEMENT

CV BOOK 2019
24TH ANNIVERSARY YEAR
CREATED IN 1907, ESSEC BUSINESS SCHOOL TODAY IS A WORLD-SCHOOL WITH FRENCH ROOTS. ITS PURPOSE IS TO GIVE MEANING TO THE LEADERSHIP OF TOMORROW AND HAVE A GLOBAL IMPACT.

ESSEC is a graduate school with programs ranging from Bachelor to PhD, a wide range of Masters programs including our flagship Master in Management and Global MBA programs. ESSEC also offers executive education and custom training designed and developed on-demand for our partners from the private sector. ESSEC holds the “Triple crown” of accreditations for global business education: EQUIS, AACSB and AMBA.

At the core of the ESSEC learning experience is a combination of excellence and distinctiveness. ESSEC’s unique educational model is based on education by experiences, that foster the acquisition of cutting-edge knowledge with the development of know-how and life skills. At ESSEC, we aim to empower students and give them the keys to imagine, create, lead and have a positive impact in the business world of tomorrow that will be more complex and changing ever more rapidly.

ESSEC is a world-school. Our International campuses in Asia-Pacific and Africa are dual gateways that allow students to really immerse themselves into different cultures worldwide and develop genuine expertise about business in those regions. They allow our school to build deeper alliances with academic, private and public partners in those regions that are growing at an accelerated pace and will be leaders of economic growth in tomorrow’s world. ESSEC has built a network of alliances with academic partners worldwide so that its students’ learning journey is a true international one.

ESSEC is a school with French Roots that trains responsible leaders. Being a responsible leader means being able to see beyond business as usual. Responsible leaders are able to value long-term benefits over short-term profits; they are able to blend corporate performance with employees’ well-being. To prepare its students for the world of tomorrow, ESSEC’s pedagogy seeks to awaken and develop creative and critical thinking, together with the learning-by-doing method. Responsible leaders are those who can see the broader picture.

ESSEC is a full ecosystem at the crossroad of rigorous and relevant research, innovation, business and society. At ESSEC we believe in bringing research and companies into the classroom, we also believe that learning doesn’t end with a degree: learning at ESSEC means becoming a life-long learner and joining a close-knit community of more than 55,000 Alumni all across the globe.

Vincenzo Esposito Vinzi
Dean and President
of ESSEC Business School

30 double degree programs (24 international, 6 national)

162 permanent faculty of 37 nationalities including 20 emeriti professors

+500 partner companies in education and recruitment
INTRODUCTION

2019 marks another special year for us – a year of CONSOLIDATION.

24 years after launching the world’s first MBA in International Luxury Brand Management in 1995, ESSEC has now taken it to the next level and transformed the MBA into a Global MBA with a major in Luxury Brand Management as of September 2017.

The wide choice of luxury specialized classes remains exactly the same, as does the mentor program, luxury conferences, field trips, boutique internships and field projects which make our program so unique. In addition to this advanced specialized content, participants of the program can now also benefit from an enhanced core curriculum emphasizing macroeconomics, the crucial role of innovation, digital transformation, financial skills and complexity management. Luxury participants will now take courses with participants specialized in 2 other majors (strategy and management, and digital business and innovation) thereby also broadening their network of peers.

As opposed to competing MBA programs offering a less concentrated luxury specialization, our newly formatted GMBA in Luxury Brand Management continues to allow our participants to benefit from a deep-dive into the management of luxury brands (60 % of the program) whilst also enhancing their leadership, managerial and digital skills.

The program continues to attract participants from all over the world with an average of 7 years international professional experience who are provided with highly concentrated and intensive exposure to fashion & accessories, jewellery and watches, fragrances and cosmetics, wines and spirits and retail.

The MBA Program also provides ongoing career orientation and support to participants to help them find suitable positions upon graduation. Individual counselling, seminars on job search techniques, interview simulation exercises, recruitment sessions and CV Book distribution are some of the ways we assist participants and keep them in contact with job market realities during their studies.

Please feel free to directly contact those participants whose profile may be of specific interest to you.

The CV book is also available on www.essec.edu under Global MBA in Luxury Brand Management.

Anthea Davis
Director of Corporate Relations and Career Development
ESSEC Global MBA in Luxury Brand Management
ESSEC Business School, Paris

BRIEF DESCRIPTION OF THE MBA PROGRAM

The Global MBA in Luxury Brand Management program is a one-year intensive program, delivered in English at the ESSEC Campus, on the outskirts of Paris.

It is structured to provide maximum exposure to the luxury and prestige goods industry. In addition to the studies and projects focusing on the sector, participants also gain practical experience and in-depth knowledge of the industry through Boutique Internships, International Field Trips, and Global Field Projects.

**Boutique Internships**
The luxury and prestige sector is one where retail is the ultimate battleground. Therefore all MBA participants spend at least 1 week working in a boutique. At the end of the internship, MBA participants write an evaluation report which is shared with the host companies.

**International Field Trips**
Three field trips are organized to major international destinations, which either have an established luxury sector or have an emerging market in the luxury sector. Through company presentations and site visits, MBA participants are able to better understand these markets and gain a deeper insight into the company from an international perspective. Field trips this year are to Hong Kong, New York and Milan/Florence.

**Global Field Projects**
Participants are required to carry out specific consultancy projects for luxury and prestige companies to give them maximum exposure to real life situations within the industry. The Global Field Project is carried out in teams of 3/4 between May and September. It concerns a business issue within a company (for example, business plan for a new activity, feasibility study for activity expansion abroad) and is monitored by an MBA Professor and by a company executive.

**MBA PARTICIPANTS’ PROFILE**

<table>
