

Professor of Statistics

(Associate or Full)

ESSEC Business School, Asia-Pacific, Singapore

The Department of Information Systems, Decision Sciences and Statistics (IDS) at ESSEC Business School invites applications for a permanent full-time faculty position in Statistics at its Asia-Pacific campus in Singapore. The position can be at the level of Associate or Full Professor.

We seek applicants whose research relates to econometrics, statistics, statistical machine learning or data science, broadly construed. Candidates should have a strong scholarly record with an international research focus. Their main objective will be the production of impactful and high-quality academic publications, both fundamental and applied, to support the consolidation and development of the reputation and expertise of existing research groups at ESSEC.

Applicants should also have a track record of excellence in teaching. The appointed candidate will be involved in related master programs (such as ESSEC Master in Finance, ESSEC Master in Management, and ESSEC|CentraleSupélec Master in Data Science & Business Analytics), our PhD concentration in Data Analytics, and the development of data science initiatives and pedagogical activities at the Asia-Pacific campus. Candidates with prior experience or an interest in executive education on data science and related topics are desired.

Research support is an integral part of the ESSEC policy and faculty members enjoy an attractive incentive-based research environment. The rank of appointment (Associate or Full Professor) and salary will be commensurate with qualifications and experience. Salaries are competitive at the international level.

To be considered for this position, candidates should hold a Ph.D. in Applied Mathematics, Econometrics (Economics/Finance...), Statistics or a relevant discipline, and show evidence of excellence in research and teaching.

Applications are to be submitted [via this link \(https://forms.gle/nACuD6pcYiyhad2z5\)](https://forms.gle/nACuD6pcYiyhad2z5), before 31 January, 2022 to receive full consideration.

The application package should include:

- a cover letter describing research and teaching interests;
- a curriculum vitae;
- a complete list of publications and teaching evaluations;
- a research statement;
- a teaching statement;
- contact information of at least three referees.

Any questions about this position may be addressed to Professors Pierre Jacob (jacob@essec.edu) or Jeremy Heng (heng@essec.edu).

The search for candidates opens with this announcement and continues until the position is filled. We aim to conduct interviews on our Paris or Singapore campuses, barring any travel restrictions. Interviews may be conducted online in the event of travel complications.

The IDS department at ESSEC Business School has 21 full-time faculty, with 7 members in the Data Analytics group (2 in Econometrics and 5 in Statistics & Applied Probability). It includes various chairs such as the Accenture Chair in Analytics (<http://strategic-business-analytics-chair.essec.edu/>) and two research centers: CREAR (<http://crear.essec.edu/>) and, with the Operation Management department, OMOR (<http://operations-management-research.essec.edu/>). A list of our department members can be found at <https://faculty.essec.edu/>.

ESSEC offers a dynamic and stimulating research and teaching environment. Founded in 1907 in Paris, ESSEC Business School is a center of academic excellence underpinned by its faculty's research and an array of highly ranked undergraduate, graduate, doctoral, and executive education programs (Master in Management #3 FT 2020 Worldwide, Master in Finance #4 FT 2020 Worldwide, Executive Education Custom Program #3 FT 2020 Worldwide). The school is 6th on the list of best European Business Schools.

The current strategy of ESSEC makes Business Data Science, and the management of Artificial Intelligence & Technology one of the three pillars of the school, through the creation of the ESSEC Metalab for data and technology of society.

ESSEC Asia-Pacific opened its doors in Singapore in 2005. The state-of-the-art campus located in the One-North innovation hub welcomes about 1,000 students and professionals globally each year. The campus offers undergraduate (Global BBA), graduate (Master in Management, Specialized Masters) and Executive Education (Executive MBA, Custom, Open Enrolment) programs. The campus has

sustained growth in local talent of faculty, staff, students, and alumni, and serves as the Asia-Pacific regional hub developing and expanding our network of academic and corporate partnerships in and around the region. This constitutes a stimulating and vibrant environment where our professors play a key role in the development of the campus.
